- ✓ Trap-Neuter-Return
- ✓ Dog and puppy training
- ✓ Education

SPAY/NEUTER, VACCINATION AND WELLNESS

PREVENT. PROTECT. REPEAT.

Every week, around 800 animals visit us for spay/neuter, vaccination and wellness services. This helps prevent disease and ensure pets live longer, happier lives, but it also decreases pet homelessness, making our community a better place for both pets and people.

Our work doesn't end here. The need for supportive pet services is only going to keep growing, which is why we have plans to expand our building to help more pets and people than ever before. We hope to have your continued support to prepare for the goodness to come.

Thanks for your love and support.

KEEPING PETS AND PEOPLE TOGETHER.

REIMAGINING THE MISSION

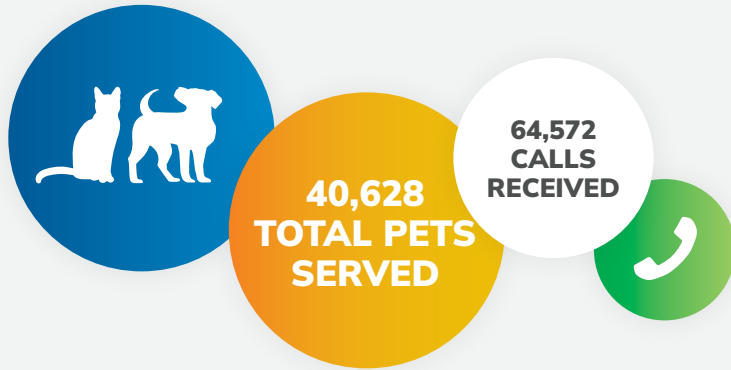

PET RESOURCE CENTER OF KANSAS CITY
2022 IMPACT REPORT

FISCAL 2022 PROGRAM OVERVIEW

KEEPING PETS AND PEOPLE TOGETHER

This year marked 20 years of providing kindness, love and support to pets and families in Kansas City, but it was also a record-breaking one.

Not only did we continue to elevate our spay/neuter, vaccination and outreach programs, but we also expanded our services to meet the growing needs in our community and stop loved pets from ending up homeless or in shelters due to a lack of funds.

TO MAXIMIZE OUR EFFORT, WE HAD TO WALK THE WALK AND LET OUR GUIDING PRINCIPLES LEAD THE WAY.

BE HELPFUL

BUILD TRUST

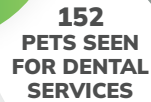

BE COMPASSIONATE

Acting on these principles every day not only allows us to be there for pets and their families as an animal care provider and resource, but as a confidant and friend during difficult and uncertain times.

LOW-COST URGENT CARE AND DENTAL PROGRAM

FINDING MORE WAYS TO MAKE VET CARE AFFORDABLE

When folks can't afford unexpected vet bills, they rely on shelter intervention programs like ours to get their pet relief. Our urgent care and dental teams work tirelessly to help—and save—dozens of pets a day so owners don't have to make a heartbreaking decision.

COMMUNITY OUTREACH AND MOBILE SERVICES

DELIVERING KINDNESS AND CARE TO THE COMMUNITY

Meeting pet owners where they are is a big component to keeping pets off the streets and out of shelters. That's why our outreach and mobile teams go into underserved communities each week to make sure everyone has access to proper care and resources for their pets.

VOLUNTEER SUPPORT

WE DON'T DO IT ALONE

We wouldn't be able to help the number of pets and people we do without the support of our volunteers. Not only do they help ensure the success of every department in our organization, but they always go the extra mile to see pets and people thrive in Kansas City.

DONORS AND COMMUNITY PARTNERS

TOGETHER, WE MULTIPLY OUR IMPACT

The only way we're able to say "yes" and help pet owners when they're struggling is because of the support we receive from our donors and community partners. They help us keep pets happy, healthy and with their families, and for that we are forever grateful.
